Sequence 1468, Application US/09864785

Patent No. US200201775681

GENERAL INFORMATION:

APPLICANT: Ribozyme Pharmaceuticals, Inc.

APPLICANT: Brinchcomb, Dan

APPLICANT: Branch Jim

APPLICANT: McSwiggen, Jim

TITLE OF INVENTION: Levels of NF-Kappa B

FILE REPERENCE: 400/022 (MBHB00-812-D)

CURRENT FILING DATE: 2001-02-23

NUMBER OF SEQ ID NOS: 3929

SOFTWARE: Patentin version 3.0

SEQ ID NO 1468

LENGTH: 17
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              Sequence 1541, Application US/09864785
